By the Honorable Edmunds we were led to expect an impartial and frank and open decision of the case upon the evidence, an honorable open statement of the whole case, and an equitable decision upon it. But what do we see? A spectacle which resembles nothing so much as a Criminal Court in which the defendant has a desperate case against him, but has engaged a first class counsel to gethim off. And said counsel, with Honorable Edmunds at its head, who has the ear of the court, knowing that any production of evidence is fatal to his client, works all the intricate machinery of law to rule it out, and finally gets his client off by shutting out of court every witness who can say anything to bring the merits of the case before a jury.

Morton, therefore, and Logan and Cameron no longer stand on that bad eminence appropriate to them as to men whom the better part of the Republican party thought it necessary to cut loose from. LOUISIANA IN EARNEST.

The carpet-bag representatives in Washington pay almost daily visits to Gen. Grant, urging the recognition of Packard as Governor, and the forcible suppression of Nichols. The President persistently declines to see it leaving the problems as a hickory-nut for his successor to crack. Meantime, New Orleans to the Chicago Times is a true utterance of the feeling of the people of that State, it is quite clear that they mean business:

New Obleans, Feb. 18.—The rumors com-ng from Washington of a proposed com-bromise on the Louisians question as promise on the Louisiana question as concerns the State government, are evidently founded upon no assurances. The representatives here of the Nichols government will not accept any compromise whatever. In fact it is known to be the sentiment of Governor Nichols himself that for the next four years he will be Louisiana's Governor, or she will be controlled by a military Governor. This means simply that although the President may recognize Packard, his efforts through the ase of his troops to force his mandate will be resisted by force, and although neither Governor Nichols or any one doubts that the result of the conflict will witness the retirement of the Nichols party, yet the stand will be made so that the National Government will be compelled to place Louisiana under a military Governor. Of one thing the country may be certain, the Packard Government will never obtain control of this State, come what may. If by any chance that Government should be foisted into de facto power it is as certain as the rising of the sun that it would not endure the day that sees it lifted to power. Such an order will be the signal for the beginning of an era of violence and bloodshed from one end of the State to the other. To submit to another four years of Radical rule in this State would be the abandonment by her people of every hope of prosperity or relief for all time. It would be the jumping-off place. Knowing that and knowing, too, that now if ever they must effect a change which, whatever it may be, can not be for the worse, they propose to do it, and the resolve is a desperate one. For the week past, and latterly especially, when it became manifest that the electoral vote of cerns the State government, are eviorse, they proposed one. For the week ast, and latterly especially, when it became manifest that the electoral vote of coulsiana was going to Hayes, this subject ias been earnestly discussed by the men sho are at the head and front of the Nichols Fovernment, and the conclusion which ias been reached is that not a single position now held by the Nichols Government will be yielded without a fight, even should not fight be against United States soldiers, and for such an emergency the Nichols Government is fully prepared. Gevernor Nichols can, in three hours' time, put upon the streets an army, organized, drilled and armed, exceeding in number all the available United States troops in the South. Should Mr. Packard be recognized, the serious question will be presented whether Should Mr. Packera be recognized, or serious question will be presented wheth-or not to use this force, and to what exter While there is an earnest desire to avo any kind of collission with United Stat troops, undoubtedly the prevalent feelil is to maintain and defend the possession the State Government against all come e State Government against an conters, d to yield to nothing except irresistible ce. During the past week seven ousand stand of new arms have been eived here by the Nichols Government, received here by the Nichols Government, and every gun has now an owner prepared when the time comes to use it. Whether or not these indications of the Louisiana programme are to be verified may be known within a week, and perhaps forty-eight hours. The only person able to put the matter to proof is the man whose province it is to say whether Nichols or Packard is to be Louisiana's Governor.
